SHELTER TO SOLDIER

SAVING LIVES, TWO AT A TIME

Riley and Todd's journey together was made possible by Red Star Sponsorship from

Tea3 Foundation
Giving of Time, Talent, & Treasure

"Riley has helped me recognize my worth and value. He also has given me the ability to trust again and see how much fun this world can be. Riley makes me feel safe and not alone."

"Riley has helped me realize that I have a bright future ahead of me and my problems are not as big as I was making them out to be. He is a big "why" for me to get out of bed and make the best of the day."

"I knew immediately that I was supposed to be there and Riley was the dog for me. Honestly, he and I won the lottery the day we met each other."

Todd, US Army

Todd, US Army Veteran, was an infantryman and is a Purple Heart recipient. After his years in the service, Todd began having difficulty trusting other people, always felt on high alert; and had trouble finding joy in things he used to love. He felt he lacked purpose and a reason to live. His dedication to the training program with Riley was inspiring, and as a team they have thrived since graduating our program in November 2022. Riley was a failed scent detection dog, homeless and lacking a purpose himself. He soared through the Shelter to Soldier training program, thrilled to have a job and eager to have a forever home to call his own.

EVERY DAY 17 US Veterans

On Average Commit Suicide

(U.S. Department of Veteran Affairs)

More than 500,000 servicemen and women are living with invisible wounds, from depression to post-traumatic stress disorder and 320,000 are experiencing debilitating brain trauma (Wounded Warrior Project).

EVERY DAY Approximately 1,800 Dogs **Are Euthanized Nationwide**

(American Society for the Prevention of Cruelty to Animals)

Each year, America sees approximately 3.3 million dogs enter U.S. animal shelters nationwide. Shelter to Soldier provides them a future with a purpose and a life that is fulfilled by their bond with a veteran in need.

SHELTER TO SOLDIER

A 501c3 Nonprofit Organization

Shelter to Soldier is a 501c3 nonprofit organization that adopts dogs from local rescues and shelters and trains them to become psychiatric service dogs for post-9/11 veterans suffering from Post Traumatic Stress (PTS), Traumatic Brain Injury (TBI) and/or Military Sexual Trauma (MST). The program also places emotional support animals (ESAs) with active duty military and veterans in need and deploys the Shelter to Soldier Canine Ambassadors, a team of therapy dogs, to provide visits of love and comfort to local military, veterans and their families.

A New Home on the Horizon

"Shelter to Soldier is thrilled to be in the search for property for our new home. Thanks to the wonderful philanthropist, the late Betty Higgins, we have received a \$1M Grant to build a new facility to house more dogs in training, serve more veterans who need our program, and expand our reach of services. This is an exciting and important next step for the program's trajectory and a very special milestone to us all."

SPONSORSHIPS | MAKE A DIFFERENCE

\$18,000

Each service dog/veteran team costs our program an average of \$18,000 from adoption to graduation. This includes the adoption, housing, medical care, grooming, food, treats, training, training equipment, bedding, toys, testing, handling training, service dog equipment and documents, graduation and materials for the veteran recipient and service dog pair.

Shelter to Soldier dogs are trained over 12-18 months to be highly obedient and handler-focused in all environments, to ignore distractions, and to mitigate symptoms of stress, anxiety, and depression through task-related work.

Some commands learned:

- Watch
- Front
- Behind
- Center
- Touch
- Closer
- Right
- Under

Shelter to Soldier visits local shelters and rescue groups and evaluates dogs 11 months to 1.5 years of age, of any breed, weighing 45-70 lbs, and in good health for our service dog training program.

We evaluate temperament for: desire to work and have a job, food or moderate toy drive, the way the dog handles new environments, people and noises, and an overall stable and social demeanor.

Upon qualified match – **veteran handlers train for an average of 7 months** time depending upon handling abilities and how well the team picks up on training.

Handlers learn to communicate effectively with their dog to create a loving bond while learning all commands and service dog laws/regulations to prepare them for a life with a service animal.

GRADUATION!

We celebrate the dedication of the dog and handler once they successfully complete all necessary training and pass required tests.

This is where the journey truly begins for the veteran/service dog team!

Three tests are required prior to completion of training:

- Canine Good Citizen
- Public Access Test
- Task-Related Test

EMOTIONAL SUPPORT ANIMALS

Career Change Dogs | ESAs + Pet Dogs

Dogs who are not able to complete our psychiatric service dog training program due to training progress are career-changed to Emotional Support Animals (ESAs). ESAs are placed with active duty military or veterans who are recommended an ESA by a mental healthcare professional. While ESAs do not have the same public access rights as service dogs, they still serve a very important role as a companion to a deserving recipient.

- Shelter to Soldier is honored to have graduated five Emotional Support Animals in 2023
- Dogs who display behavioral challenges making them unsuitable as psychiatric service dogs or ESAs are adopted out as pet dogs.
- Shelter to Soldier had two pet adoptions in 2023

Shelter to Soldier Canine Ambassadors | Therapy Dog Team

This is a group of certified Therapy Dogs and their dedicated handlers. These teams work in a variety of capacities to provide comfort and love to members of the veteran and active duty military community. Our Canine Ambassadors attend each STS Veteran Applicant interview, work with our veterans to strengthen their handling prior to placement with a service dog, attend Shelter to Soldier events, visit with active duty military and their families, work with active duty service members and veterans during trauma recovery therapy, and participate in veteran group therapies and events in the community.

Shelter to Soldier is proud to have 6 therapy dog teams serving our community currently as Canine Ambassadors thanks to the support of Kiwanis Club of La Jolla, Tea 3 Foundation, and donors Karen & Jeff Shabel.

Since 2012 we have placed 73 dogs and graduated 56 service dog veteran/teams. 17 dogs have been placed as Emotional Support Animals. We currently have 25 dogs in training.

"I want to thank every single individual who is involved with STS and the SD Woman's Club as you all are heroes to us veterans. Your work and commitment does not go unseen. After coming across other service dogs in public, it is very clear that STS dogs are amazingly trained with high standards. For all that, I thank you!"

"I had brain surgery in November and this past month, I've started to try to run again. I'm only at running 3 minutes before my eyes start bouncing, but around 2 minutes is when I get quiet and fall into doubt about my oscillopsia. Haru boops my leg and after we make eye contact, we both continue on and I fall out of my doubt."

"In the 3 years we have lived here (before Haru), I've only walked by myself to the Oceanside Harbor once. Our home is not even a mile from it, but that one time, I had a panic attack. Since we brought Haru home, Haru and I walk down there every other day! She is amazing!"

MAKING A WAY FOR A BRIGHTER FUTURE

Shelter to Soldier is paving the way of support for veterans on the homefront. With the growth of our program this year, we have expanded our services to veterans and have created job opportunities for some of our graduates.

INDIVIDUAL THERAPY

Approved veteran applicants have the opportunity to attend one-on-one therapy sessions with our mental health liaison, David Moss LCSW, at no cost to the patient.

COMMUNITY OUTREACH & RESOURCE CONNECTIONS

Shelter to Soldier has expanded our network with the Veterans Administration and supporting clinics, enhancing our collaborative efforts with case managers and nurse practitioners at Southern California VA Hospitals, and veteran advocates at regional Vet Centers.

SUPPORTING OUR GRADUATES LONGTERM

Though a joyous new beginning in a positive direction, graduation for our veterans can come with challenges. We work together with the training team to engage and support our graduates to encourage and promote their continued success. We are proud to share exclusive social opportunities such as theater tickets, concert tickets, sporting events, museums, and more donated to us by our community partners as well as host social events where graduates can come together in a safe environment to continue training and share their journey with their service dog.
